Activities can only be created by assigned contact persons. If in doubt, contact your organizer.

Log on the event web app.

Create your activity:

- If you are listed as a contact person on more than one, Sponsor/Exhibitor, choose on which profile the activity should be.
- Type a headline
- Define/post the question
- Define the options for answering. Are you listing options? Or is it an open comment field?
- Now add the listed options – unless you chose 'type a response'
- Submit – the activity will now appear on the chosen Sponsor/Exhibitor profile

The screenshot shows a mobile application interface for creating a survey. The title bar is black with a home icon and the text "Create A New Survey". Below the title bar, there are several sections:

- Select:** A dropdown menu showing "Bing" with a plus sign to the right. An arrow points from the first instruction to this field.
- Name:** A text input field. An arrow points from the second instruction to this field.
- Question:** A text input field. An arrow points from the third instruction to this field.
- Select a Question Type:** A section with three radio button options:
 - User can select one answer
 - User can select multiple answers
 - User can type a responseArrows point from the fourth and fifth instructions to these options.
- Answer(s):** A section with a plus sign and the text "Add Answer:".
